Description

Large square coffee table inspired by the Louis XIV style, combining solid oak with the elegance of stone marquetry. Its tabletop features remarkable cabinetmaking: a geometrically arranged, doweled assembly that frames a central inlay of blue-gray marble veined with white, with polylobed contours. Four corner inlays echo the central marble and lend the piece perfect symmetry. A piece of character, with simple yet majestic lines, ideal for enhancing a classic living room or adding charm to a contemporary interior. Excellent condition. Delivery in France: 120 euros
