

Aviation Barometer / Art Deco Weather Station And Clock In Aluminum, Brass, And Bronze (circa 19

350 EUR

Period : 20th century

Condition : Très bon état

Material : Metal

Length : 34cm

Height : 13cm

Description

Art Deco-era desk ornament or weather station, featuring a bold industrial/aviation design. The piece is crafted from a solid aluminum frame, brushed and polished, and assembled with brass and bronze components. This technically sophisticated and aesthetically pleasing triptych incorporates four measuring instruments: Mechanical clock: Square salmon/copper-colored dial with typical Art Deco Arabic numerals; "8 Days" inscription at the bottom of the dial. Hand-wound mechanical movement accessible from the back. Aneroid barometer: Square salmon-colored dial matching the clock, graduated for weather forecasts (Rain, Wind, Variable, Fair, Very Dry). Drum thermometer: Horizontal rotating cylinder protected by glass, graduated in degrees
