Description

An elegant crystal ewer decorated with twisted ribs, adorned with a rich silver-plated bronze mount bearing the "VS" hallmark featuring the sailboat emblem of the Victor Saglier house. The curved body, extended by a slender neck, creates a beautiful interplay of transparency and light. The mount features a design of foliage and scrolls, enhanced by a bearded mascaron in relief. A large, flowing handle, a hinged lid with an ornate clasp, and an openwork base complete this refined Rocaille-style piece. Height: 30 cm. Condition: signs of wear on the frame. The interior requires additional cleaning due to a stain left by a beverage, visible in the photos.
