830 EUR

Period : 20th century

Condition : Très bon état

Material : Painted wood

Description

An elegant pair of Louis XVI-style nightstands, dating from the early 20th century, featuring a very lovely antique almond-green patina that is soft and luminous. Slightly rounded in shape, each table features three drawers on the front, adorned with delicate carved foliage and floral motifs. The drawers are accented with round knobs that harmonize perfectly with their color. The upper section is accented by a carved frieze, which is also repeated on the lower part of the piece. The set rests on four tapered, fluted legs, richly carved and adorned with foliate motifs characteristic of the Louis XVI decorative repertoire. The almond-green patina, intentionally nuanced and slightly worn in places, lends this pair a great deal of character and particularly highlights the relief of the carving. Both decorative and functional
