Description

Charles X Mahogany Shelving Cabinet - FranceAn elegant and refined Charles X-era shelving cabinet, French-made from fine mahogany.The cabinet stands out for its original architectural design and the exquisite quality of its craftsmanship. The sides, as is particularly evident in the photographs, feature an elegantly dynamic silhouette, characterized by sinuous lines and elaborate side supports carved with volutes.The structure is punctuated by turned columns with molded elements, which support the various shelves and lend the piece a pleasing balance between neoclassical rigor and the decorative style typical of the Charles X period.Of particular interest is the progressive variation in the depth of the shelves: moving upward from the base, the shelves gradually
