5 650 EUR

Period : 19th century

Condition : A restaurer

Material : Gilted wood

Width : 130

Height : 210

Depth : 8

Description

Large Baroque-style mirror, crafted in Italy in the 19th century, featuring an imposing structure in carved and gilded pine wood. The mirror has a beveled finish that adds depth and brightness. The molded frame is enriched with intricate leaf carvings and grape motifs, alternating along the entire perimeter. An openwork frame adorns the sides and the crest, where a central mask is surmounted by a putto holding a grapevine. The intertwined scroll carvings with grape leaves cascade down the sides, accompanied by depictions of winged caryatids. An example of craftsmanship that combines aesthetics and functionality, ideal for spaces that require a strong visual impact. ANCOSP0321128
