Description

Yellow Gold and Garnet Ring. A delicate yellow gold ring, adorned in the center with a deep red, square-shaped garnet, faceted with beveled edges and set in a slight diamond shape within a four-prong setting. The particularly thin band is flanked on either side by small spherical gold motifs. Probably foreign in origin, bearing the French import hallmark featuring a weevil, in use since 1864. Gross Weight: 0.58 g Stone Dimensions: 3 mm TDD.57
