Description

An elegant antique horn cane featuring a carved and polished black horn handle. The shaft is composed of a series of horn discs in varying shades--ranging from deep black to brown, honey, and amber tones--mounted on a central iron core. The natural alternation of colors and sections gives this cane a particularly decorative and distinctive appearance. It displays a beautiful antique patina and signs of use consistent with its age. Note: there are a few small perforations and signs of old wear on one of the horn discs, visible in the photographs. Period: late 19th - early 20th century
Material: horn, iron
Length: 82 cm
Condition: good antique condition, with minor wear to some of the discs
