### Description

A very beautiful Louis XV-style "snack table" made of walnut. The sides feature two openings that allow this small piece of furniture to be moved to different spots in the room. The tabletop features a beautiful, boldly carved border, and the rounded legs extend into a curved base. The piece is entirely original, though there are two small, old restorations on the legs. A beautifully crafted regional piece. Rhône Valley. Provenance: Château de la Verdière (Var) Mid-18th century.
