

Ladies' Vanity Set In Brass And Glass - 1950s

450 EUR

Period : 20th century

Condition : Bon état

Material : Brass

Description

An elegant 1950s ladies' vanity , featuring a refined brass frame with contoured glass shelves and an adjustable mirror. The sinuous and light design, typical of postwar Italian production, is enhanced by the two glass shelves and brass details, which lend the piece a timeless elegance. Originally, the vanity was equipped with built-in lighting. The electrical system needs to be inspected and is not covered by warranty. It is in good overall condition, with visible signs of age and use, fully consistent with its age. Dimensions
