

Barrel-loaded Revolver (category D Licensed)

780 EUR

Period : 19th century

Condition : Parfait état

Material : Wrought iron

Length : longueur totale 23cm

Description

We present this 8mm revolver, the civilian version of the MAS service model. It is considered a collector's item and is authorized for sale as a Category D collector's item. It was manufactured at the Saint-Étienne firearms and bicycle factory: Manufrance. Another difference with our example is that it is not bronzed. It may have been bronzed at one time, and this model was often issued to rural constables or municipal police officers. In perfect condition, though note a few superficial pitting marks. Shipping not included
