Height : 89,5

Description

This vintage sideboard from the 1950s is characterized by its modernist aesthetic and elegant contrast of materials. Its clean-lined structure combines warm wood with beautiful amber hues and light-colored panels, creating a graphic silhouette typical of postwar furniture.The front is punctuated by large sliding doors clad in metal, accented by long, vertical wooden handles with a slightly curved design. The short, sturdy cylindrical base visually lightens the overall look while reinforcing its retro character.
