Description

Vintage Kartell chest of drawers, designed by Olaf von Bohr, 1970s. Made of glossy red ABS/rigid plastic, it consists of four large stacked drawers, featuring the characteristic handles integrated into the front and a modular structure with clean, geometric lines. A piece emblematic of 1970s Italian design, both functional and decorative, it fits easily into both contemporary settings and modern vintage interiors. This piece is in good overall condition, considering its age. There are marks, light scratches, and normal signs of age and use, visible in the photographs, which do not compromise its functionality or overall charm.
