

17th-century Door Lock

360 EUR

Period : 17th century

Condition : Bon état

Material : Wrought iron

Length : 15 cm

Width : 15 cm

Description

17th-century door lock. This lock is a wrought-iron piece. It features a movable latch that the lock mechanism can secure. Its strike plate is square in shape, edged with an ornate band imitating rope. The lock still has its two bolts, which can pass through the door and are bent on the other side to make it impossible to remove.
