

3 Pairs Of Antique 19th-century Interior Shutters With Pegs, For A Total Of 6 Panels

1 440 EUR

Period : 19th century

Condition : Bon état

Material : Painted wood

Width : 105

Height : 231

Depth : 3,0

Description

A set of beautiful antique shutters dating from the 19th century with very attractive rounded molding. There are three pairs, for a total of 6 panels; each panel folds back, featuring a paneled section 33 cm wide and a solid section 19.5 cm wide. Each panel is therefore 52.5 cm wide. The height is 230 cm. They can be used as shutters as-is, or cut to your desired dimensions; since they are pegged, they can be easily adapted. Or there are many other possible uses: full-height closet doors in a bedroom (photo 2), walk-in closet doors (photo 3), kitchen doors by separating the paneled sections--12 panels available (photo 4), closet doors in a hallway with minimal floor space required (photo 5); photos 2-3-4-5 illustrate these possibilities. These vintage pieces will add plenty of charm and decorative
