

African Necklace

1 250 EUR

Period : 20th century

Condition : Très bon état

Material : Bone

Description

A very unique antique African necklace featuring 16 bone beads decorated with black lines with a circular diameter of 22 cm. This necklace comes from the prestigious collection of Claude and Jeanne Vérité, specifically from their estates which were officially auctioned on September 19, 2020, in Coulommiers (see photos). It could be a royal necklace from Cameroon belonging to the Bamoun or Bamileke ethnic group; I say this tentatively because nothing was specified at the auction other than its provenance. The necklace is in very good condition and appears to be antique. Free shipping for the Europe Union, 70 euros for international.
