Description

19th-century oil on canvas depicting the portrait of a young woman. An elegant portrait of a young woman depicted in a bust portrait, slightly turned toward the viewer. The subject, with an oval face and a direct gaze, is depicted with an expression that is both gentle and enigmatic. The young woman wears an olive-brown dress adorned with small floral motifs, accented by a wide, light-colored pleated collar and a dark ribbon tied around her neck. A loose red shawl, draped over her shoulders and upper body, lends the composition a remarkable chromatic intensity. Note the intriguing framing of the subject. Oil on re-stretched canvas mounted on a modern stretcher. Shipping within France:
