

## Platinum/18wg Solitaire Ring With Lab-grown Diamond - 4.01 Ct D/vs2 With N Diamond

2 628 EUR

Period : 20th century

Condition : Parfait état

Material : Gold

### Description

An exceptional solitaire ring crafted in platinum and 18-karat white gold, featuring a stunning lab-grown diamond weighing approximately 4.01 carats. Graded D for color and VS2 for clarity, the center stone offers remarkable brilliance, exceptional clarity, and a colorless appearance. To enhance the center diamond, square-cut natural diamonds are set on each shoulder, totaling approximately 0.30 carats, adding extra sparkle while keeping the focus on the impressive solitaire. Additional information: Total diamond weight: 4.01 carats Diamond color: D Diamond clarity: VS2 Ring width: 2.5 mm Setting width: 11 mm Setting length: 16 mm Total weight: 6.27 g Ring size: Q1/2 TSMS10963
