Description

Important "Artois" tableware set in Limoges porcelain - Bernardaud Limoges porcelain dinner service by Bernardaud, "Artois" model, based on a design from the Count of Artois's porcelain manufactory from the late 18th century. Set against a white porcelain background, the design combines leafy garlands with bouquets of roses and blue flowers, arranged along the rims and in the center of the pieces. The scalloped borders feature a grid-patterned relief design and are accented with a gold line. The same design appears on the various shaped pieces, notably the soup tureen, whose handles and knobs are accented with gold. The set consists of 32 pieces: 12 dinner plates, 12 soup plates, 1 covered soup tureen, 1 sauce boat, 1 salad bowl, 1 round deep dish, 1 round dish, 1 oval dish, 2 small bowls. Each
