

Small Leaded Sun Mirror, Probably From The 17th Or 18th Century, France.

230 EUR

Period : 18th century

Condition : Très bon état

Material : Lead

Diameter : 20,4 cms au plus large.

Description

A rare mirror with a lead frame shaped like sunbeams. This type of design was commonly used for monstrances, gilded wooden mirrors, and larger sculptural elements. This frame shows traces of silver plating. The mirror itself is slightly pitted. The wooden backing plate was replaced in the 20th century. A beautiful and uncommon decorative object. France, 17th or 18th century.
