Description

A beautiful graphite drawing, partially painted in watercolor, depicting people of high social standing stopping at a farm. Very well composed, this charming drawing, rich in detail and set in a somewhat idealized natural landscape, has a few minor foxing spots, but is overall in good condition. The frame is made of stuccoed and gilded wood; it is simple but effectively highlights the drawing. 18th century for the drawing, 19th century for the frame. Unframed: 29 cm x 20.5 cm. With frame: 45 cm x 34.5 cm.
