

Rare Agricultural Tool Made Of Wrought Iron

220 EUR

Period : 19th century

Condition : Bon état

Material : Wrought iron

Length : 26 cm

Description

A rare 6-pronged agricultural tool made of wrought iron. There are two theories regarding its function: A) To stir the grape pomace during fermentation (stirrer) B) To extract chestnuts from their husks (chestnut peeler or baston de Ricio)
