

Sculptural Mirror Made Of Bluish Concave Glass - Italy

1 800 EUR

Period : 20th century

Condition : Très bon état

Material : Glass

Diameter : 87 cm

Depth : 7 cm

Description

A remarkable sculptural wall mirror made of bluish thermoformed glass, crafted in Italy--21st century. Circular in shape, its deeply concave glass gives the reflective surface a striking three-dimensional effect. Surrounding elements are reflected in it and distorted, creating a particularly spectacular interplay of optics, light, and depth. Depending on the viewing angle and lighting, the mirror produces vastly different reflections, transforming its surroundings into a shifting, almost abstract composition. Its beautiful shade of blue further enhances its sculptural character. Wall mounting is particularly simple: three brass brackets are attached to the back of the mirror, allowing for easy installation. A piece with a contemporary and experimental design, distinguished as much by its function as a mirror
