

Antique Perfume Bottle Made Of "ouraline" Or "uranium Glass." 19th Century.

400 EUR

Period : 19th century

Condition : Bon état

Length : 9 cm maxi

Height : 12,5 cm

Description

Antique perfume bottle made of Ouraline or Uranium Glass. The intense neon-green luminescence is characteristic of the uranium dioxide present in the crystal. Richly faceted design, enhanced with fine gold gilding featuring foliage motifs, scrolls, and dotted patterns in relief (gold enamel). Classic European production often attributed to Bohemian glassworks. There is some wear on the gilding, but the original stopper is present, and the piece is complete and intact. Please feel free to contact me for more information, and add us to your favorites to stay updated on our latest arrivals! Secure shipping is available throughout France for 20 euros. In the event of a return, we inform our valued customers that return shipping costs are the responsibility of the customer.
