Description

Small cabinet on sale, two-door cabinet, made of elm, beech, and cherry wood. The cornice is basket-handle shaped; it is projecting and molded with a quarter-round and a cavet. The sides are divided into three panels set within scroll-cut and molded frames. The stiles are adorned with a small bevel and terminate in small volutes on the front. A piece from the early 19th century. Inscribed on the inside of the right door as having been made by Mr. Vierrier in 1826 or 1827 while apprenticing in Saint-Genest-Malifaux. Department 42, commune of La Loire. Payment by bank transfer Shipping charges not included.
