

The Coal Miner's Coat Hanger

185 EUR

Period : 19th century

Condition : Parfait état

Material : Other

Description

Read this while humming Pierre Bachelet's song: "Au Nord, y'avait les corons"... for added flavor. Two cast-iron pulley blocks--survivors of the mines' demolition... up north, where the miners used to shower before heading back to their mining towns... They would hang up their clothes so they wouldn't get soiled on the way up... A moving glimpse into a daily life I wouldn't have wanted to experience.
