Description

Pair of impressive gilded bronze candlesticks - French-made, Napoleon III periodA splendid pair of impressive gilded bronze candlesticks, of remarkable presence and decorative richness, French-made, from the Napoleon III period, second half of the 19th century.The pair features an elaborate and finely chiseled structure, characterized by richly decorated architectural bases, volutes, rocaille motifs, foliage, cartouches, masks, and refined applied female figures.The shafts, with an elegant, classical design, extend into a composition of multiple curved arms, adorned with plant motifs, volutes, and striking decorative elements.The rich ornamentation and the quality of the craftsmanship lend the candelabra a remarkable grandeur and a distinctly dramatic character,
