Description

A natural bisque porcelain sculpture depicting an elegant young woman, circa 1895. She is shown leaning slightly forward, with one hand resting on her hip and the other holding a small purse. She wears an outfit characteristic of late 19th-century fashion, consisting of a fitted bodice with wide lapels, puffed sleeves, and a long pleated skirt. Her hairstyle is adorned with a large bow. The unglazed bisque allows for a clear view of the facial modeling and the details of the costume. The figure rests on a circular pedestal mounted on a molded plinth. Dated to the late 19th century, circa 1895. Height: 33.5 cm. In very good condition.
