An elegant wall mirror in an elongated octagonal shape, featuring a beveled central mirror panel framed by cut-out and richly decorated mirror panels. The pediment, featuring stylized palmette and foliage motifs, complements the delicate floral decoration on the mirror frames: small flowers, scrollwork, and beaded patterns that are engraved and satin-finished, accented by small raised elements. The very clean bevels and the interplay of the mirrors lend a beautiful sense of depth to the piece. A particularly refined decorative piece, ideal for an entryway, bedroom, living room, or elegant bathroom. Condition In perfect condition. No missing parts or damage to report.
