### Description

Set of two shelves / small obelisk-shaped pieces of furniture. Probably of French origin, mid-20th century. The open, tapered upper section features several levels for displaying objects. The low wooden units feature a decorative geometric star-shaped pattern on the front and are equipped with a small door providing access to practical storage space. The combination of the architectural obelisk shape and the bold wood carvings gives these shelves a distinctive character. Both are in very good condition! Dimensions: 170H x 50W x 50D
