Description

A beautiful sculpture, the result of encounter between a somewhat visionary sculptor and a shrub with twisted branches. It has become a work in which natural world, under form of two snakes, invites it self to the human hand in a caress. The sculpture, as expressive as it is naive, is large--40 cm x 10 cm--and intrigues with its strong presence. French Folk art, late 19th century or early 1900s. Good overall condition; normal wear and crazing. No
