

50-cm Flint Gun

1 000 EUR

Period : 18th century

Condition : Parfait état

Material : Solid wood

Description

We are pleased to present this superb flintlock pistol, 50 cm in length. All the fittings are made of brass, some of which are engraved and chiseled. The steel barrel is also engraved. The trigger guard is also made of chiseled brass, and the firing pin is steel. The mechanism works perfectly. This is likely a European (French) firearm, but made for the East. 18th century
