Description

A charming decorative mirror in the shape of a sun, crafted from wood gilded with gold leaf and adorned with mirror shards arranged in alternating rays. The circular center is surrounded by an openwork structure forming a luminous crown, evoking the poetic and sculptural creations of Line Vautrin, famous for her "talosel" mirrors with their radiant and refined forms. The gilding features a beautiful, warm patina, slightly weathered by time, which accentuates the relief of the design and lends it an authentic character. The faceted mirror shards elegantly reflect light, creating a subtle and exquisite visual effect. A high-quality decorative piece, ideal for a wall arrangement or to add a touch of gold to a classic or contemporary interior.
