Description

Large polychrome earthenware bowl - Decorated with fantastical figures and animals A large and highly decorative polychrome earthenware bowl on a pedestal, richly adorned in the style of Italian majolica. The bowl, with its dynamic shape, features a hand-painted design depicting a lively scene of figures in a landscape. The rim is adorned with floral compositions in shades of blue, yellow, green, and orange. The piece stands out for its remarkable relief decoration: handles shaped like green mythical creatures, a bearded mascaron applied to the bowl, and a spectacular base composed of stylized fish, resting on a circular pedestal with floral and aquatic motifs. The piece as a whole offers a rich array of colors and a theatrical quality, typical of decorative earthenware inspired by the Italian
