

Large Chinese Teapot Made Of Red-glazed Ceramic - Decorated With Raised Characters

240 EUR

Period : 20th century

Condition : Bon état

Material : Ceramic

Height : 36

Description

Large Chinese teapot in red glazed ceramic - Decorated with raised characters A substantial and decorative Chinese teapot in glazed ceramic, featuring a beautiful deep red glaze with subtle shades of yellow and dark tones. Generously rounded in shape, it features a long spout and a spectacular swirling upper handle, crafted in a naturalistic style reminiscent of a gnarled branch. The body is adorned with raised Chinese characters, highlighted with yellow glaze, creating a design that stands out particularly well against the red background. The domed lid is topped with a knob and features a small vent for steam. The deliberately irregular surface of the glaze, the variations in color, and the different glaze runs give this teapot a rustic and highly decorative character. A generously sized piece,
