

English Mahogany Hourglass, 19th Century

350 EUR

Period : 19th century

Condition : Très bon état

Material : Solid wood

Height : 20 cm

Description

An architecturally designed hourglass made of turned and molded mahogany, consisting of four small columns supporting a square structure resting on spindle-shaped feet. It contains a blown-glass ampoule filled with fine sand. A 19th-century English piece, intended for use in the home, office, or library. Slight signs of wear consistent with its age. Details: England, 19th century - Mahogany and glass - Height: 20 cm - Base: 10 × 10 cm - Weight: 430 g.
