

Napoleon III Jewelry Box Made Of Patinated Metal, Gilded Bronze, And Polychrome Enamel

500 EUR

Period : 19th century

Condition : Bon état

Material : Bronze

Diameter : 14

Height : 16

Description

An elegant circular metal jewelry box with an olive-green patina, adorned with a gilded bronze frame and a frieze of polychrome enamel featuring a floral design. The domed, hinged lid is decorated with an enameled motif and topped with a floral-shaped knob. The box rests on four gilt-bronze feet decorated with foliage and scrollwork. In good decorative condition considering its age. There are signs of wear and some discolorations, visible in the photographs.
Dimensions: 14 / 16 cm
