Description

An elegant vintage teak sideboard with clean, perfectly balanced lines, typical of 1960s Scandinavian furniture. It features a beautifully structured front with two doors opening onto storage compartments and two large drawers, accented by delicate handles carved from the wood. Its tapered legs give it a light and elegant silhouette. The warm teak, with its particularly decorative grain, lends great depth and character to this piece, which fits just as well in a contemporary interior as in a more classic setting. A vintage piece of furniture that is functional, timeless, and highly decorative--ideal for a living room, dining room, or entryway.
