

A Westerwald Jug, Circa 1600-1620

850 EUR

Period : 17th century

Condition : Très bon état

Material : Ceramic

Height : 21.6

Description

A Westerwald Stoneware jug .This baluster-shaped jug features vertical flutes decorating the lower part of the body.The upper part features areas with carved grid-like patterns (the *Kerbschnitt* technique) and stamped floral motifs.The neck is adorned with a mask featuring a particularly grotesque face and is topped with a pewter lid.Westerwald, circa 1600-1620.Height without lid: 21.6 cm.Condition: normal wear and tear; a hairline crack 1.7 cm long on the inside of the neck;a small chip on the rim and on the handle, beneath the pewter mount.Firing defects beneath the base.A similar jug was discovered in a pit at the Martin's Hundred plantation site in Virginia, alongside local pottery, one piece of which was dated to 1631.
