520 EUR

Period : 20th century

Condition : Bon état

Material : Crystal

Description

An elegant toiletries set from Baccarat, the "Nancy" model, crafted from clear cut crystal and accented with delicate gold fillets. The model's signature design combines a geometric checkerboard cut with diamond points and long vertical ridges. The bottles are topped with spherical stoppers carefully faceted. The numbers engraved beneath the bottles and their stoppers are matching numbers assigned in the workshop. An unsigned antique set, like many Baccarat pieces produced before 1936, which were then identified by a paper label that has since disappeared. Period: early 20th century, circa 1900-1920.
