

France, 17th Century Or Earlier : "carved Chest Front"

450 EUR

Period : 17th century

Condition : En l'etat

Description

17th-century France or earlier: "Carved chest front," fine-grained wood, 38 × 108 × 2.5 cm. Significant damage; very visible worm damage on both the front and back, though the worm galleries appear inactive at the moment. The elaborate carved motifs, featuring this incredible round face--likely symbolizing the sun--and numerous other symbols make this fragment extremely decorative, despite--or perhaps even because of--its condition. Please feel free to ask us for photos or additional information via email or phone. More photos and many other items are available at our store in Pau and on our Proantic website.
