Description

I am pleased to present this magnificent and very important 18th-century Chinese punch bowl. It features cobalt blue underglaze designs. The body is a pure white, and the floral motifs adorning the entire exterior are a deep blue and executed with great finesse. This is a very significant piece due to its size, with a diameter of 39.3 cm and a height of over 17 cm. It has a very slight, non-penetrating hairline crack and a few firing imperfections, making it a rare and sublime piece of Chinese porcelain.
