

Antique Chain And Its Clasp

4 200 EUR

Period : 19th century

Condition : Très bon état

Material : Gold

Description

An antique chain that was used to hold an antique pocket watch; it consists of links with geometric, articulated designs. At one end is a chiseled motif depicting a gloved hand holding a screw-lock clasp. This clasp can be used to attach a pendant or to secure the end of the chain to form a double-strand necklace. A slide engraved with arabesque motifs adorns both rows of the chain. Length: approximately 67 cm; chain thickness: approximately 2 mm. Slider length: approximately 15.3 mm; width: approximately 12.1 mm; thickness: approximately 8 mm. Clasp length: approximately 3.5 cm, width: approximately 10.2 mm, thickness: approximately 5.2 mm. Net weight: approximately 14.9 g. Authentic antique jewelry - French craftsmanship from the second half of the 19th

century. Our opinion: This type of vintage long necklace is currently being destroyed on a massive scale due to rising gold prices and a lack of appreciation for its value. Yet this vintage piece is so beautiful, timeless, and easy to wear.
