Description

A late 19th-century to early 20th-century bronze sculpture depicting two chubby children playing with a rooster, surrounded by farm implements on the ground. Beautifully detailed chiseling on the children's hair and the rooster's feathers. The sculpture is very well executed; the composition is balanced, and the subjects' poses and movements are realistic. A scene in the 18th-century style. Beautiful, worn original golden patina. On its sea-green Italian marble base.
