Description

An important decorative ensemble in its original varnished wooden frame comprising 9 panels of églomée glass with silver and gold gilding, and painting applied beneath the glass in recessed areas. A very beautiful piece that could be attributed to Robert PANSART Beauvais 1909-1973. Each panel measures 66 cm x 50 cm and slides into the upper and lower grooves of the frame; the 3 middle panels thus fit between the top and bottom rows. Four screws with circular brass rosettes secure the entire assembly.
