

Silver Dessert Set

300 EUR

Period : 19th century

Condition : Très bon état

Material : Sterling silver

Description

A very elegant 19th-century French petit four set, consisting of four matching pieces, made of silver and silver-plated metal. The pieces display remarkable silversmithing: the handles are richly engraved and chased, adorned with a particularly delicate floral motif and an elegant interlaced monogram. The spoons are delicately re-pierced and openworked with floral motifs, while the tips and handles are highlighted by a rich, embossed foliage design. The pieces bear the French Minerve hallmark.
