Description

Art Nouveau-style cast-iron side table - Ketall - Spain - Gray marble top
Elegant circular side table from the Spanish firm Ketall, bearing the Ketall - Spain mark on the base. It features a remarkable celadon-green painted cast-iron base, which is particularly decorative, consisting of three curved legs joined by an ornate openwork design. The piece is adorned with volutes, palmettes, plant motifs, and stylized elements, in a neoclassical style. The tripod base ends in wide, elongated feet decorated with leaf motifs. The paint shows some signs of wear and tear, which add to the piece's character. The side table is topped with a thick circular gray marble top veined with white, with a molded edge, offering a beautiful contrast to the green hue of the base. A unique decorative piece that can be used as a side
