Description

Gilded bronze mantelpiece - Decorated with scrollwork and acanthus leaves - Louis XV style
A striking and elegant antique gilded bronze mantelpiece, featuring a rich decoration of scrollwork, volutes, and large acanthus leaves. The composition is perfectly symmetrical, with two tall, openwork, and dynamically shaped side posts, adorned with abundant rocaille-style plant motifs. They are joined by a long bronze crossbar, punctuated at its center by a prominent foliage motif in relief. The base is accented by a decorative frieze alternating between oval motifs and stylized elements. The bronze retains a beautiful antique golden patina, with some visible traces of oxidation and wear, particularly on the reverse, consistent with its age. The reverse features its original metal mounting brackets. A
