Description

Italian chest of drawers from the mid-20th century, crafted from walnut and walnut burl with ebonized details. The green serpentine marble top adds elegance, while the carved Greek fret band beneath the top introduces a refined decorative element. The side posts are turned columns with Corinthian capitals, giving the piece a monumental appearance. Three front drawers made of burl wood, framed by interlacing leaf carvings, offer ample storage space. The turned and carved feet complete the aesthetic of this piece, which combines functionality and classic style in a fine piece of furniture. Product condition: Due to its age and wear, this item requires restoration and refinishing. We strive to present the actual condition of the piece as fully as possible through the photos.
