Description

Carousel Horse Black carousel horse made of rigid plastic, likely resin or fiberglass The use of rigid plastic allows for extremely precise rendering of the dynamic details of the horse in mid-leap The deep, glossy black lacquer gives the piece a luxurious and sculptural appearance Thanks to the brass rod and the stable, solid-wood base, the horse seems, so to speak, to float in a galloping or leaping motion In very good vintage condition 99 cm wide, 20 cm deep, and 94 cm tall The wooden base measures 58 cm wide, 19 cm deep, and 4.5 cm high Total weight: 15.1 kg
